Hot Springs Island is one of the best locations along the Upper Salmon River to view the nesting and foraging behavior of Lewis's Woodpecker. Side and braided river channels create excellent pools and slow-water areas for waterfowl, waterbirds, and shorebirds. Wood Duck (March-Oct), Green-winged Teal (March-Nov), Osprey (April-Sept), Sandhill Crane (April-Oct), Spotted Sandpiper (April-Oct), Lewis's Woodpecker (May-Oct), and Pileated Woodpecker (Oct-Feb) can be found at this site.
